

Our chemical storage tanks are designed and built to rigorous standards, so you have the peace of mind that your (diesel exhaust fluid (DEF), liquid fertilizer/chemicals) are being stored properly. Using high-quality poly that is chemically resistant and designed with wall ribs to provide superior strength, it is also resistant to bowing and impacts.

- Built-in rib design technology. With heavy liquids, a strong ribbed sidewall is a must to eliminate failure.
- Superior roof structure for extra support. The roof design is a key part of overall structural strength.
- Securing your tanks is made easy with 4 built-in tie down points.
- Heavy-duty walls with 1.9 specific gravity

Designed to store Diesel Exhaust Fluid (DEF), many types of agricultural liquids (like liquid fertilizer, liquid feed and various other chemicals), our liquid storage tanks for sale come in a range of sizes and color --- meaning you can easily find the perfect plastic chemical storage container for your needs.

Quality DEF Solutions

Diesel Exhaust Fluid

Quality DEF Solutions is a registered company specializing in the manufacture and supplying of diesel exhaust fluid (DEF).

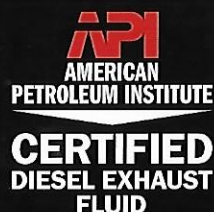

Quality DEF Solutions is located in San Saba, Texas and we are a family-owned company. We have been in the Diesel Exhaust Fluid industry for the past five (5) years and strive to take care of all of our customers' needs, big and small.

**Our products are API Certified
and
ISO 22241 compliant.**

We are also a distributor of poly chemical, poly water and fiberglass tanks that range in size from 50 gallons up to 42,000 gallons, depending on the tank you choose.

Diesel Exhaust Fluid

DEF consists of high purity urea (typically crystalline) that is dissolved and suspended in de-ionized water. The approximate ratio of the mixture is 32.5% urea and 67.5% de-ionized water.

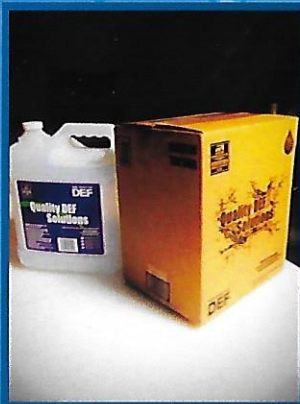

When DEF is used with Selective Catalytic Reduction system it helps reduce the amount of NOx emissions. The reduction in emissions is required to meet the EPA published Tier 2 Emission Standards for Light Duty and Heavy Duty Vehicles. This standard regulates new strict emission control that began January 1, 2010.

Quality DEF Solutions offers customers a variety of ways to purchase DEF including 2.5 gallon jugs, 55 gallon barrels, 330 gallon totes, by the truckload or even a railcar!

2.5 GALLON JUG (SINGLES OR 2 x 2.5)
